

An introduction
to **FintechOS**

Building the future of financial technology

We are driving a paradigm shift in how banks, financial services and insurance companies engage with their customers. Our dedicated industry platforms, pre-built functionality and low-code framework empower organizations to create truly personalized customer journeys in weeks, not months.

A changing financial landscape demands a trusted partner

The financial sector is under unprecedented pressure. From all sides, competition is heating up as new products, solutions and ways to engage customers take the market by storm.

The march towards digitization is undergoing unprecedented acceleration and using outdated IT is fast going from a nuisance to an unjustifiable risk.

FintechOS is trusted by leading financial institutions to bridge the gap between legacy and future forward approaches - with end-to-end solutions, automated processes and personalized offerings, keeping customers at the core.

- ✓ Digitized and end-to-end services
- ✓ Automation to replace costly analog processes
- ✓ Customer-centricity that delights users

About FintechOS

Our solutions help banks, financial institutions, and insurers to quickly launch new services that are customer-centric and data-driven.

We offer digital-on-top solutions that give institutions the ability to reduce their reliance on outdated infrastructure, to fully digitize their operations, and to make innovative customer experiences.

FintechOS is fast to deploy in the cloud or on-premise. Our pre-built modular functionalities accelerate projects and our low-code studio allows business teams to innovate quickly.

Financial institutions struggle with digital transformation fatigue.

FintechOS helps them roll-out personalized digital products, services and customer experiences in weeks.

Financial technology designed for the future

FintechOS Lighthouse makes banking easier and simpler. Our customer-centric platform for banks enables the delivery of smarter, more profitable products that offer personalized experiences. Pre-built functionality and low-code empowers organizations to create value quickly. Build over your legacy system with a digital layer or start fresh with a digital core - the choice is yours.

Northstar propels insurers forward. Our customer-centric platform for insurance lets insurers deliver smarter products, at a faster rate. Our platform makes continuous innovation and fast go-to-market a reality. End-to-end digital customer journeys and increased efficiencies reduce cost.

Innovation Studio opens up access to technology through a low code framework. It's a space where your non-technical teams can create and launch personalized products and journeys - all driven by data and powered by automation.

Industries we address

Retail Banking

Offer your customers the experience they deserve and become the bank they love.

SME Banking

SME banking starts with understanding your market. Get up to speed with smarter segmentation, better risk assesment, and more tailored products for the segments in your portfolio.

Life insurance

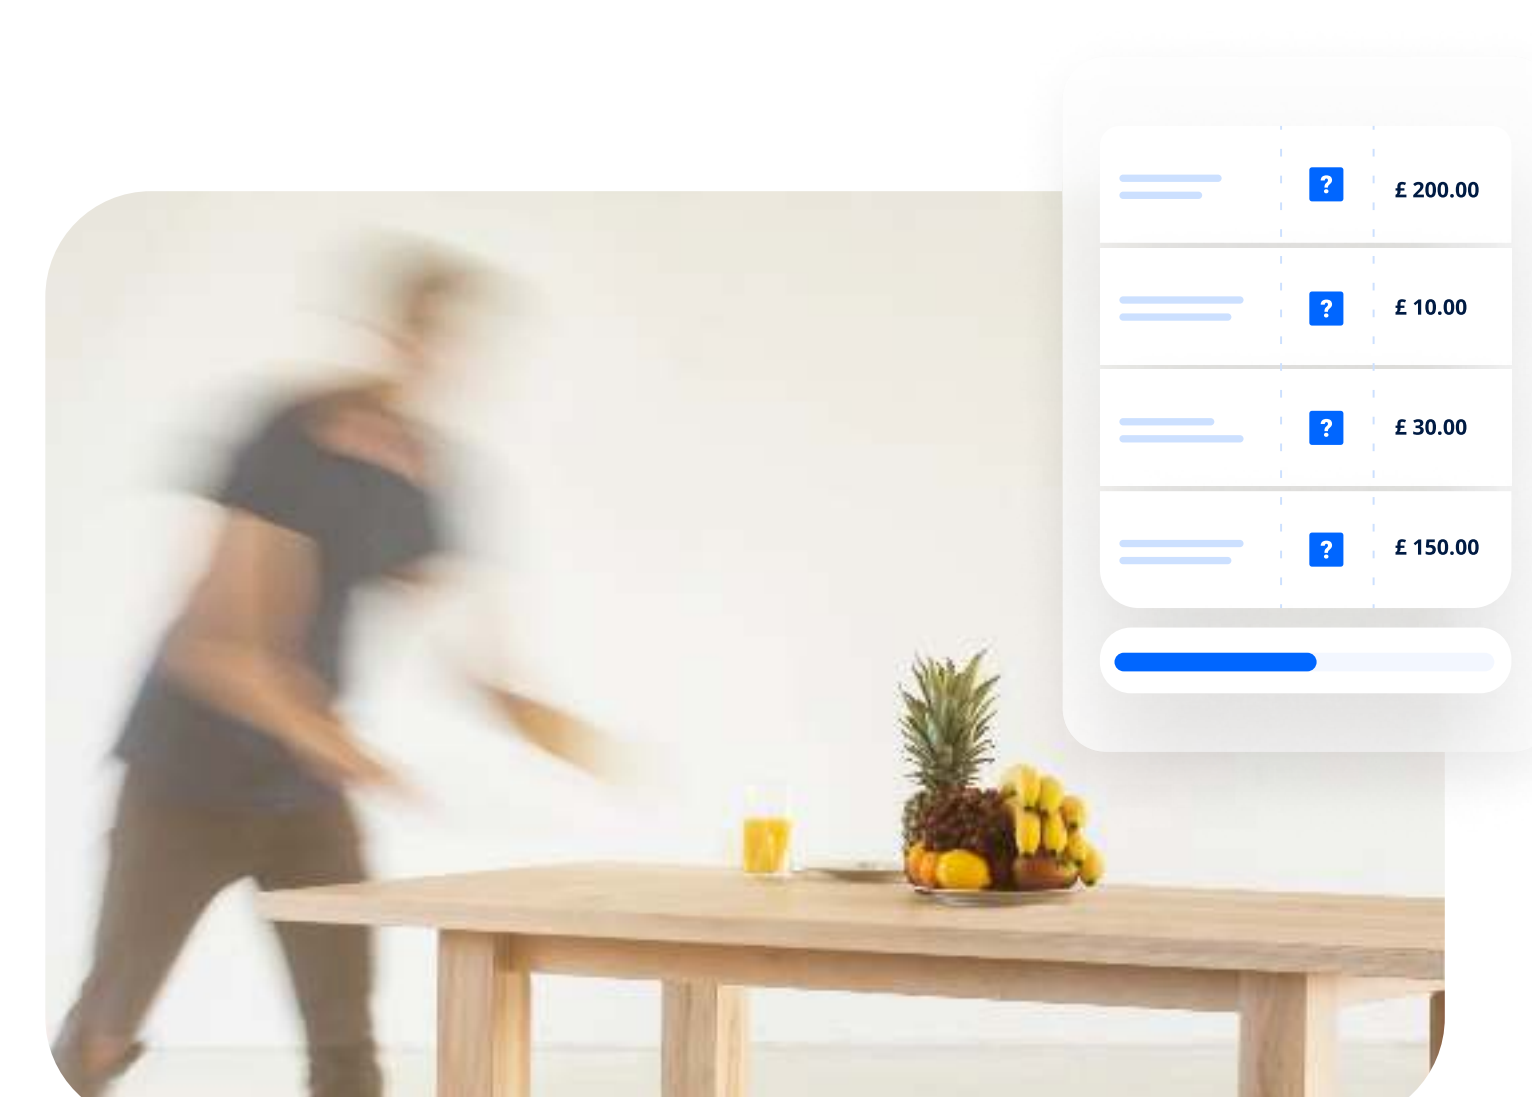

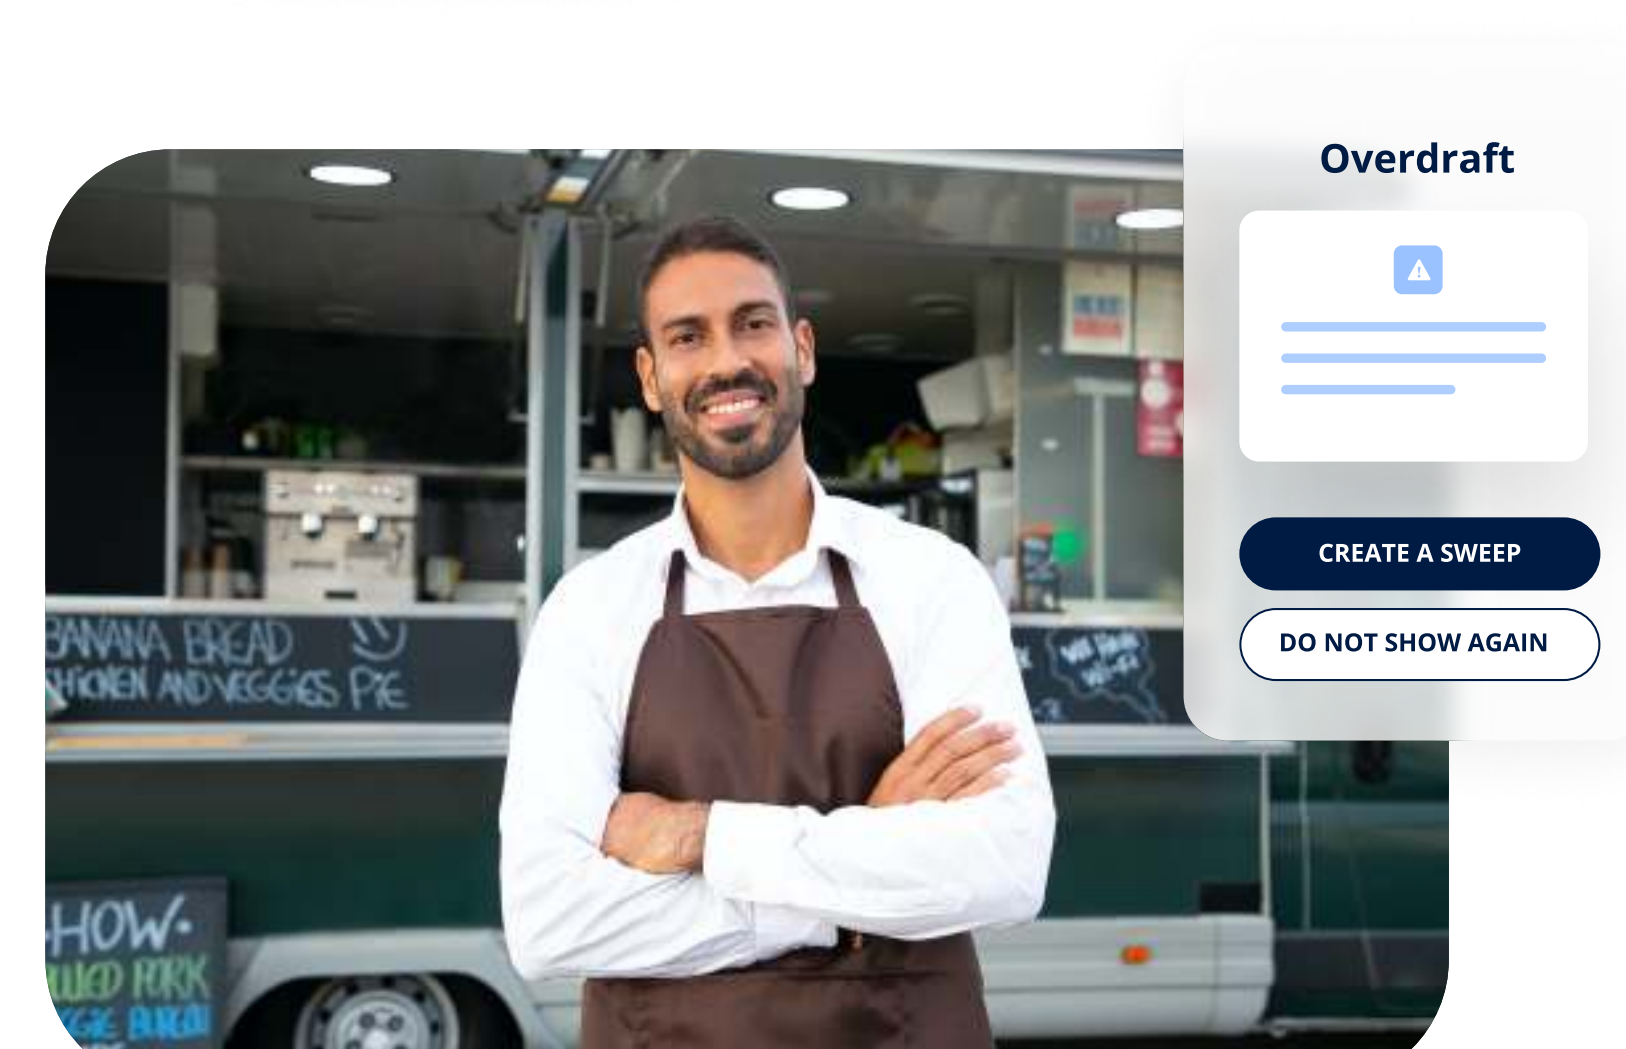

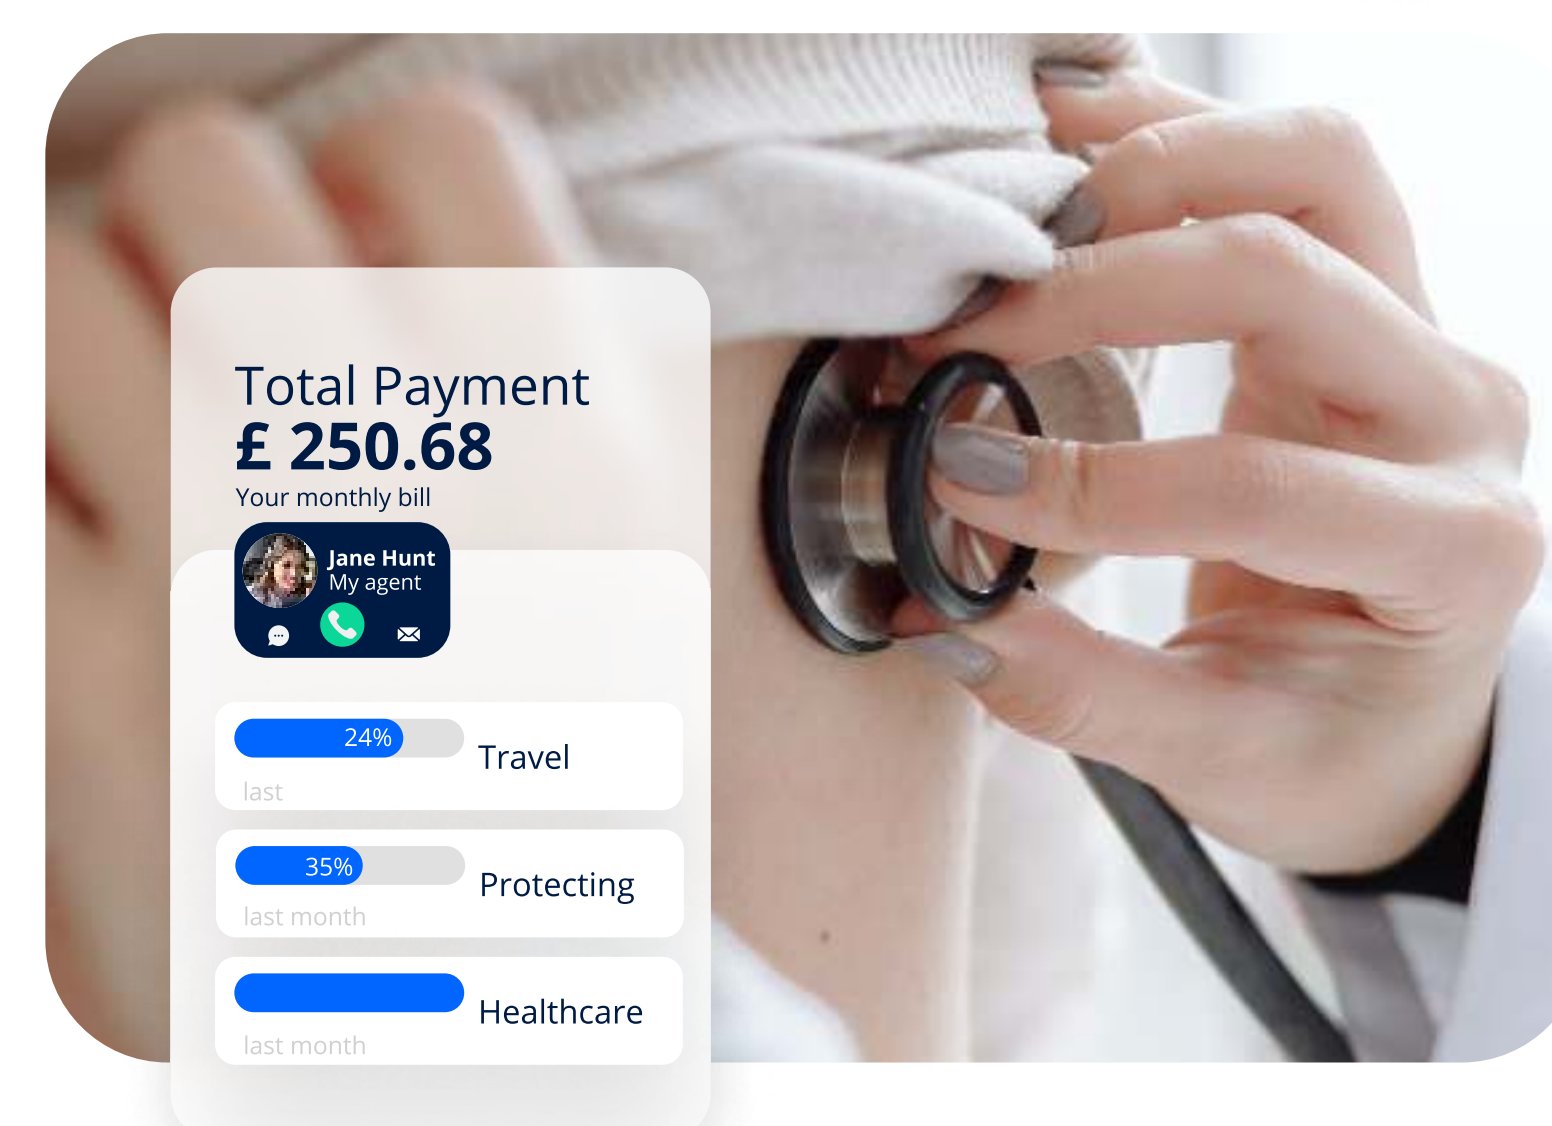

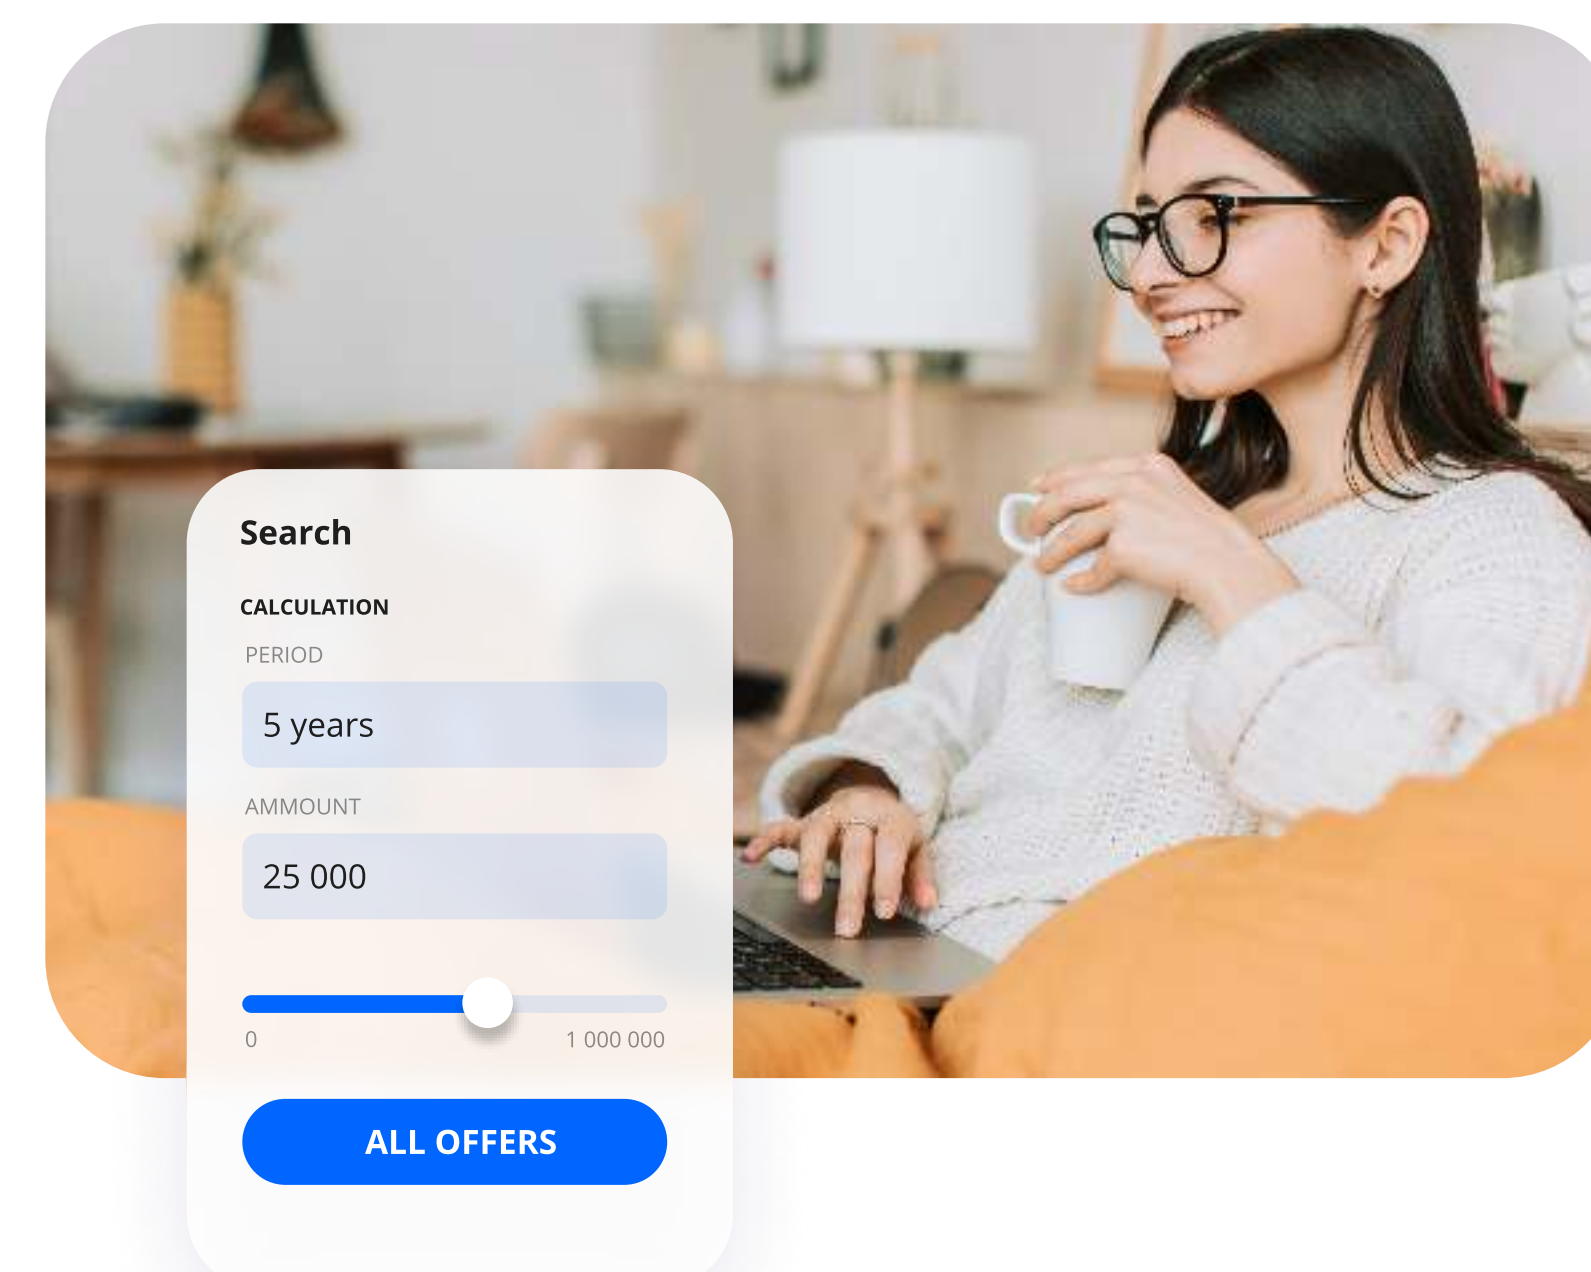

Become the insurer that understands its customers. Digital innovation offers the opportunity to connect with customers through personalized experiences powered by data.

Health Insurance

Insurers face the challenge of creating better health outcomes with higher efficiency in a health system shocked by the pandemic. Virtual care, personalized health recommendations, and behavioral incentives can bring much needed improvement to members.

General Insurance

Aggregators and embedded insurance have shown that without a customer-centric approach general insurance is becoming a commoditized industry.

Our platform supports more than 40 clients all over the globe

We enable financial institutions of all sizes to fully digitize their stack to offer innovative digital financial products with unparalleled user experiences.
